

Dear Friend,

HB 1486 is an incredibly cruel proposal: If you lose your job or can't find a job, Missouri legislators want to punish you by taking away your food stamps – even if it means your kids won't have enough to eat.

The Missouri House has already passed this bill, and on Wednesday it will be heard in the Senate Seniors, Families and Children Committee.

We need to stop this bill before it goes any further.

Please take action today and tell the Senate Committee and Senate leadership to reject this misguided and heartless bill.
