

A GLOBAL DAY OF GIVING

#GIVINGTUESDAY™

11.28.17

Dear Friend,

[GIVING TUESDAY IS HERE!](#) Today is our national day of giving, and it makes a big difference for your favorite nonprofits, including Missouri Health Care for All.

Time after time, you have showed up this year when health care needed defending, and it's made a huge impact.

Here's what we know for certain:

1. Grassroots activism still works, and in fact, it's the only way to protect what matters most in this climate. It's nearly December and both the Affordable Care Act and Medicaid are still standing.
2. Defending health care is going to be a marathon, not a sprint. With Congress continuing to find new ways to attack health care programs, we need to sustain our efforts to identify threats, inform supporters, and mobilize those who can help.

We are working hard to fight off an anti-health care tax bill, to fund the Children's Health Insurance Program, and to advance the Bipartisan Healthcare Stabilization Act. And, we're preparing for the 2018 Missouri legislative session, which begins in just over a month. **We'll need you more than ever in the new year.**

Will you help us have the resources we need to sustain our work into 2018? [Your tax-deductible Giving Tuesday donation](#) will support the costs of protecting the health care programs we have and working toward a health care system that truly works for all Missourians.
